

FOR IMMEDIATE PRESS RELEASE

Invitrx Therapeutics Announces Expansion of Executive Team

Irvine, CA., May 4, 2020 — Invitrx Therapeutics, a biotechnology company pioneering in regenerative cell therapy, today announced several key changes to its executive team, including the promotion of Ranjan Gupta, M.D. as Chief Scientific Officer, and the appointment of Marco Zahedi, M.D. as Chief Medical Officer. Invitrx Therapeutics provides significant opportunity with its premium cellular products across multiple disease areas, the company is excited to welcome Dr.Gupta and Dr.Zahedi to its team, and looking forward to benefiting from their expertise in guiding the company in its ambition to deliver the full potential of its regenerative medicine expertise.

Ranjan Gupta, M.D., served as a Medical Director at Invitrx Therapeutics and will lead the company as a Chief Scientific Officer with additional responsibilities. Dr.Gupta, is a professor of Orthopaedic Surgery, Anatomy & Neurobiology, and Biomedical Engineering, Chief of Shoulder Surgery in the Department of Orthopedic Surgery in the School of Medicine, and serves as an Oral Examiner for the American Board of Orthopaedic Surgery as he has done so for the past many years to help ensure that the highest standards of clinical care are maintained for the American public. Dr. Gupta is Professor of Orthopaedic Surgery, Anatomy & Neurobiology, and Biomedical Engineering, Chief of Shoulder Surgery in the Department of Orthopedic Surgery in the School of Medicine, and serves as an Oral Examiner for the American Board of Orthopaedic Surgery as he has done so for the past many years to help ensure that the highest standards of clinical care are maintained for the American public. Dr.Gupta received his undergraduate degree from Rensselaer Polytechnic Institute, and his medical doctorate degree from Albany Medical College through the Accelerated Six Year Biomedical Program. He completed a general surgery internship, residency in Orthopaedic Surgery, and an NIH Post Doctoral Research Fellowship at the University of Pennsylvania. Subsequently, Dr. Gupta completed fellowship training in hand surgery/microsurgery at the University of California, Los

Angeles, followed by an AO Fellowship in hand surgery/traumatology/shoulder at the University of Berne in Switzerland. He served in the role of Department Chairman for the University of California, Irvine from 2006 to the end of 2015. During his tenure as chair, the department rose from being ranked #128 by U.S. News & World Report to #40 and became the highest ranked specialty for UC Irvine Health.

Marco Zahedi, M.D.,M.P.H. brings extensive medical leadership and experience in cell therapy to Invitrx Therapeutics and will serve as a Chief Medical Officer. Dr.Zahedi graduated Magna Cum Laude from California State University, where he received his Bachelors in Science (B.S.) in Biochemistry and Medical Physiology. Post-Baccalaureate, he worked as a research assistant at Genentech developing anti-cancer compounds, and later in nanoparticle research at the Sandia National Laboratory. He attended the Chicago Medical School where he completed his Medical Degree (M.D.) training with Alpha Omega Alpha honors designation. Dr Zahedi went on to complete his residency training at University of Southern California (USC) Huntington Memorial Hospital in Pasadena, CA with a focus in Dermatology. Post residency, Dr. Z completed his Masters in Public Health (MPH) from the University of Southern California Keck School of Medicine. Throughout his career, Dr. Zahedi has passionately pursued efforts to reduce the effects of pain and aging on his patients through early adoption of new technologies. He was one of the early adopters of cell based therapy for both anti-aging and anti-inflammatory indications, conducting research on preventing wrinkles and hair loss, scar reduction, enhanced post-traumatic musculoskeletal recovery, and reducing the burden of autoimmune conditions such as Psoriasis and Eczema. Dr. Zahedi is medical director for the Ageless Life Institute and My IV Therapy, with locations in Orange and Los Angeles County.
